The IDIIL Summer Program is designed to promote academic growth and to provide a multidisciplinary, creative and collaborative environment during summer vacation.

 The **IDIIL Summer Day Program** will be in full session again this summer! Our unique summer program balances academics and fun. It starts from **structural academic enrichment activities**, to **creative/collaborative activities**, and followed with many **fun & competitive activities**. **IDIIL** summer day program promotes **academic achievement, creativity, collaboration, team spirit, and friendship**.

 **Daily schedule:** The regular session for **IDIIL** Summer Program runs from **9am-4pm, Monday through Friday**. The **extended afternoon** program is available from **4pm-6pm** and, depending on the demand, there may be an **extended morning** program from **8am-9am**.

The **morning** program, from 9am to 12:30pm, consists of structural academic enrichment and creative/collaborative activities. At the end of each session, there will be a final presentation.

 The **academic enrichment activities** incorporate the well-known **IDIIL fully individualized, discovery-based academic enrichment programs** in **Math, English, and Problem Solving & Thinking Skills**. Children learn in a challenging, yet low-pressure environment where they can achieve **great academic advancement** as well as build **genuine confidence** and **good study habits**. In this interactive, discovery-based learning environment, the learning is always self-initiated and guided by experienced instructors.

 **Creative/collaborative activities:** including **creative writing, arts & crafts, creative drama, and magic science.:**

- **Magic Science**, designed by MIT/Harvard scientists, has been a very popular programs in previous **IDIIL** Summer Sessions. The pro-

gram consists of simple science experiments in the form of magic shows. All students will get hands-on and collaborative learning experiences.

- **The Creative Writing program**, designed by highly-skilled writing experts, allows students to express themselves creatively in either a collaborative project or a personal task. Students will be exposed to different genres of writing: poetry, newspaper, advertisement, resume, book writing, or playwriting.
- **The Creative Drama program** integrates creative writing, science, arts & crafts, dance, performance art, and group organization skills. It promotes creativity, brainstorming, and collaboration.
- **Arts & Crafts** introduces students to multicultural arts and encourages students to develop their creativity.

The **afternoon** program, from 2pm to 4pm, includes **fun & competitive** activities such as **educational computer games, chess, card/board games, vocabulary bingo, music & movement, treasure hunts, and competitive team activities**.

- **Educational field trips** to zoos, museums, Aquarium, historical sites and publically offered educational programs.

Additional Programs (with additional fees):

- **Chinese lessons for kids and adults** by experienced instructor with interactive curriculum.
- **Go lesson, Chess lesson** (chess & Chinese chess)
- **ISEE/SSAT & SAT Prep Programs** provide intensive review, practice tests, study guides and test strategies by our experienced instructors. Although the previous records have proven that all of our long term students can pass the standardized tests with flying colors without any extra preparation, this **intensive prep program** can ensure the best test result for all students. 100% of our last year's ISEE students received high enough scores to enter their first-choice school!
- **The IDIIL Writing Program**, with a focus on thought generation (brainstorming, elaboration, main idea etc...), organization (cohesion, paragraph, essay structure), style, voice and other basic conventions, enables students to perform all types of academic writing tasks with clarity and confidence.

 **Staff** at each center consists of a director, head teachers, and counselors. The director oversees all daily activities. The head teachers, assisted by the counselors, help with academic and fun activities. All of our staff members are enthusiastic and have extensive experience working with children.

 **Transportation & pick-up:** Parents are responsible for transporting their child to and from the program at the appropriate times. Picking up a student more than 15 minutes after the program ends will result in a late fee of \$5 for each 15 minute delay.

*To complete the registration, please submit the Health & Agreement Forms that can be downloaded from www.idiil.com. Confirmation notices will be sent out upon receipt of registration form and proper payment. **Full tuition payment is due on June 1**. Late payment may result in the lost of space.*
